

Red Oak Lavender Farm has contributed many times over this year with having 2 full time employees and 2 students for summer help, as well as 4 more people to help at the farm when available. The farm bought the property next door to them thus doubling the size of the farm, expanded making lavender products from their grown lavender, and now expanded their bloom times to 3/4 the year with all kinds of flowers which are sold in the shop. They also donate eggs from their chickens to Jeremiah's House and created a donation box for NOA, and gave raffle baskets to TLC and NOA.
