

Truist works to inspire and build better lives and communities, including here in Lumpkin County! The Truist Foundation provides financial support to higher educational institutions that have projects and programs focused on leadership development, economic mobility, thriving communities, and educational equity. The Truist Foundation recently partnered with the University of North Georgia Mike Cottrell College of Business in recognition of UNG's focus on building better lives for students and communities UNG serves.

Additionally, the Truist Cybersecurity team, led by Liz Popella, recently participated in the UNG Cyber Career Fair on Thursday, October 27. The event was an excellent opportunity for Truist and other partners to connect with students for internships and full-time job opportunities in cybersecurity and computer science.

Thank you to Truist for the workforce development, capital investment, and corporate responsibility made here in Lumpkin County!
