

Grace Valley Pest Control was founded in 2022 to bring high quality pest control service to the North Georgia community. Their experience comes from more than 15 years in the pest control industry with more than 30 years of customer service experience. One thing that they have found is that customer service today is not what it used to be, and as business owners they recognize that it is something that should never be taken for granted.

When Andrew Taylor and Matt Bozeman started Grace Valley Pest Control, they wanted to do something different. They strive to always put the customer first and to deliver the best results on any service they do. This is the culture of Grace Valley Pest Control and what they like to call, the “Grace Valley Way.” Oftentimes they see that customers are in a constant state of discontent when dealing with larger pest control companies. “You never know who is servicing your property and the results can vary with each service.” The “Grace Valley Way” ensures that they always keep in mind their own experiences with poor customer service. They approach every situation by asking one simple question, “Would I be happy with the service and effort given by Grace Valley Pest Control today?” They want every customer to be satisfied with both the quality of the service they provide as well as the level of customer service they receive.

Grace Valley Pest Control was proud to have participated in the Dahlonega Christmas Parade, be a Jolly Elf Sponsor, and volunteer in the Triple Gap Bicycle Event this past year.
